DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

The building is three stories high and three bays wide. The first story facade has been altered to accomodate a centered, flat door surmounted by a flat single light transom. To the left of the door there is a double light in flat large plate glass store window spanning the remainder of the facade to the left of the door. Flanking the door on the right is a smaller, flat plate glass window. These three elements are recessed. To the right of this window are flat double doors of plate glass. The remainder of the first story facade is covered in glazed blue tiles.

The two outer bays of the second and third story facades are identical: that is, to either bay or facade a bay window composed of three double hung windows with one over one lights, wood sills, and wood lintels. The center bay is punctuated by a flat double hung window of one over one lights, wood sills, (and wood lintels to either facade.)

The 2nd and 3rd story building walls are brick. A decorative wood frieze is surmounted by a wood cornice with half brackets. The roof is flat, and fenestration symmetrical in the 2nd and 3rd story facades.
